DETAILED ACTION

REASONS FOR ALLOWANCE

1. Claims 1-93 are allowable over the prior art.
2. The following is an examiner's statement of reasons for allowance:

Reasons for allowance are given in applicant's response filed January 16, 2007. US 6,637,955 B2 to Toyoda discloses a shutter device comprising: glass (329g) as a semiconductor substrate; photoconversion layer (329d) as a photoconversion device; polarizing layer (329b) as a dielectric layer formed over the photoconversion device; and filter (329a) as a mesh optical filter (see column 24, lines 41-46). However, the teachings of Toyoda do not explicitly disclose the formation of the photoconversion device within the substrate. To do so would actually destroy the device taught by Toyoda. As a result, claims 1-93 are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
